KangaSling

Wrap for Kangaroo Care
& Breastfeeding

Allows Easy Breastfeeding

Hip & Neck Support

Effective Thermal Control

Skin-to-skin care combined with frequent breastfeeding, is a practice termed as Kangaroo Care (KC) and is strongly recommended by the World Health Organisation.

It creates an optimal environment for adaptation of newborns to extra-uterine life and has proven benefits for mother and child, improves breastfeeding rates and overall healthy growth of the baby.

KANGASLING

KangaSling is a wrap specifically designed for safe & continuous Kangaroo Care with ease of doing frequent breastfeeding. It's ergonomic and secure design empowers parents to practice Kangaroo Care for prolonged hours in a hands free, safe and comfortable manner.

Superior to traditional wraps, KangaSling has a specially designed pouch to allow mothers to breastfeed their babies frequently while continuing to wear the wrap.

EASY FOR BREAST FEEDING

Has a front open flap to allow frequent breastfeeding in a very easy manner without needing to remove the whole sling.

HIP & NECK SUPPORT

Has an inbuilt hip support to maintain correct & safe baby position and a foldable neck support for babies of all sizes.

ERGONOMIC FOR LONG USE

Distributes the baby's weight on the shoulders making it comfortable for longs hours of continuous use.

SECURE & HANDS FREE

Locking mechanism holds the baby securely, letting the user go hands-free and can be worn without any assistance.

SKIN SAFE & REUSABLE

Crafted from lab tested, high-quality 100% cotton fabric, the sling is baby skin friendly, washable and fit for multiple uses.
